Academic Project:
Project: Matrimonial System (MCA Sem. IV)
Description:

Matrimonial System is useful for the people who are seeking a life partner. They just have to register themselves to this application database. Whenever there will be requirements for the particular People, which is applicable for marriage, he

will get the appropriate message from the side of his/her required partner .When the People will get details about his/her life partner, then he/she can go with their further schedule. This system also deals with
Adding and deleting member and employee information. This system also helps manager to keep track of project through the report send by employee.

Team size: 3
Duration: 6 Month.
Technology Used: Visual studio 2008 (C#)
Database: SQL Server 2005
Role: Software Developer.
Responsibility: Designing, Coding, Database Connectivity and Validations**.**

Project: Hotel Management System (Bsc. Comp. Sci. Final Year)
Description:
This Project is useful for efficient Hotel Management. It includes Stock Maintenance, Billing, and Employ Details.
Team size: 1
Duration: 4 Month.
Technology Used: VB 6.0
Database: MS Access.
Role: Software Developer.
Responsibility: Designing, Coding ,Database Connectivity and Validations
