## Time Table for SYBSc Semester IV (CBCS 2019 and 2022 Pattern) for Nov. 2026

### SYBSc Semester IV

| Date      | Day            | Time              | Subject                                                        |
|-----------|----------------|-------------------|----------------------------------------------------------------|
| Wednesday | 18 Nov<br>2026 | 03 pm to<br>05 pm | <b>MTH-401</b> Complex Variables                               |
|           |                |                   | <b>ZOO-401</b> Genetics                                        |
|           |                |                   | <b>BOT-401</b> Plant Embryology                                |
| Thursday  | 19 Nov<br>2026 | 09 am to<br>11 am | <b>CS-401</b> Data Structure-II                                |
|           |                |                   | <b>MB-401</b> Genetics and Immunology                          |
|           |                |                   | <b>IT-401</b> Data Structure-II                                |
|           |                | 03 pm to<br>05 pm | <b>MTH-402(B)</b> Differential Equations and Numerical Methods |
|           |                |                   | <b>ZOO-402</b> Evolutionary Biology                            |
| Friday    | 20 Nov<br>2026 | 09 am to<br>11 am | <b>CS-402</b> Programming in C++-II                            |
|           |                | 03 pm to<br>05 pm | <b>CS-404</b> Network Security                                 |
|           |                |                   | <b>CH-404</b> Advanced Analytical Chemistry                    |
| Saturday  | 21 Nov<br>2026 | 03 pm to<br>05 pm | <b>MAR-</b> विनोदी कथा आणि विज्ञानपर लेखन                      |
|           |                |                   | <b>ENG-</b> Communicative English                              |
| Wednesday | 25 Nov<br>2026 | 09 am to<br>11 am | <b>CH-401</b> Physical And Inorganic Chemistry                 |
|           |                |                   | <b>ELE 401</b> Digital Communication                           |
|           |                |                   | <b>ELE-401</b> Analog Communication                            |
|           |                | 03 pm to<br>05 pm | <b>CH-402</b> Organic and Inorganic Chemistry                  |
|           |                |                   | <b>ELE 402</b> Microcontrollers and Applications               |
|           |                |                   | <b>ELE-402</b> Linear Integrated Circuits                      |
| Saturday  | 05 Dec<br>2026 | 02 pm to<br>04 pm | <b>General Knowledge</b>                                       |
